RE: MB Docket No. 14-57

Dear Chairman Wheeler,

My name is Matt Parks, and I am a current customer of Time Warner Cable in Portland, Maine. I am writing you this letter due to the proposed transaction between Comcast and Time Warner Cable. I was thrilled to hear of the proposal and wanted to use this venue to express my excitement about Comcast's impending arrival.

Before moving to Maine in 2012, I worked for two years as a Corporate Relations Manager for City Year, Boston. During my time in Boston, I was able to experience the innovative technology and service that Comcast offers. Even more importantly, as a person dedicated to serving others, I cannot help but think of how Comcast's community involvement worked in Boston and how it will benefit the people of Maine. My personal experience with Comcast in Boston proved to me that Comcast is truly unique in its status as a major corporation that goes above and beyond to bring a positive impact to the communities they serve.

Comcast was a key partner and sponsor of City Year during my tenure with the organization. City Year, which was founded in 1988 in Boston, works with its corps members to help them become tutors, mentors, and role models during a year of service in predominantly at-risk, urban schools. Our mission is to keep students on track to graduate and reach their potential through the power of education. Comcast sponsors 11 City Year teams, including the Boston team that I was a member of.

Each year, the company hosts corps members for a Human Resources Development Day. This is a one-day program designed to strengthen corps members' skill sets and competencies to prepare them for success after City Year. Comcast further fosters future leaders committed to helping communities by sponsoring City Year's annual national conference, where five outstanding City Year alumni are recognized with the Comcast Leadership Award.

I am also extremely excited by Comcast's potential move to Portland because of the great service I know it will bring to both homes and businesses. I currently work as a Director of Development at Maine Medical Center, and am sure that companies and organizations like mine will benefit from Comcast's Business services. I also look forward to availability of Xfinity On Demand and the multi-platform access I will have with Xfinity.

In closing, as someone who has personally experienced the company's commitment to community involvement and its excellent service, I am very excited for the proposed transaction to close. I am hopeful that you will allow the transaction to proceed, so that Comcast can come to Portland.

Sincerely,

A handwritten signature in black ink, appearing to read "Matthew C. Parks", written over a horizontal line.
